2. REGULATORY DISCLOSURE

Collins Sarri Statham Investments Limited is registered in England, company number 06539190 and has its registered and principal place of business at 138 Fortis Green Road, Muswell Hill, London, United Kingdom, N10 3DU. Collins Sarri Statham Investments Limited is authorised and regulated by the FCA and is bound by the applicable FCA rules outlined in its Handbook. The firm's Financial Services Register number is: 483868. The firm's permitted business is arranging, advising, dealing as agent, and making arrangement for undertaking transactions in investments.

- 2.1. Collins Sarri Statham Investments Ltd (CSSI) is a privately-owned traditional stockbroker involved in advising our clients on stock exchange traded investments. Our investment advice is limited to stocks and share based investments and derivatives based on these and where appropriate quoted investment trusts, FX, Government and corporate bonds and securities. As our investment advice does not cover all retail investment products, for example, we do not give advice on unitised investment products, life policies or pension-based products, under the Retail Distribution Review (RDR), we classify ourselves as being "restricted". We only provide advice on stockbroking and associated products. Our services are designed for UK retail clients seeking stockbroking advice on the products listed above. We assess suitability via your Investment Profile and adapt for vulnerabilities such as providing extra explanations for those with limited experience. We review services annually to ensure they meet needs and avoid harm.
- 2.2. If you have signed up for either our Classic or Contemporary Advisory service, we shall deal with your investments on an advisory basis, or on execution only basis on those occasions you give us a direct dealing

instruction without any advice being given by us. In relation to the execution only trades, we will not advise you on the merits or suitability of the transactions at the time of execution and you will be placing the trade at your own risk.

- 2.3. We may also provide advice on investment services that are not regulated by the Financial Conduct Authority, and accordingly the protection afforded by that legislation is not available to you with regard to this. There is no compensation scheme for such products and services. We will notify you in all instances when this is the case.

3. CLIENT CLASSIFICATION

Unless we notify you in writing to the contrary, we will be treating you as a "Retail Client" as defined under the FCA Conduct of Business Sourcebook. As a retail client, you receive the highest level of protection, including eligibility for the Financial Ombudsman Service (FOS) and Financial Services Compensation Scheme (FSCS). This includes micro-enterprises. Under the rules outlined in the FCA Conduct of Business Sourcebook you may request to be re-classified as an Elective Professional Client. This must be done in writing. However, if you do, and we agree to this re-classification, this would result in a decreased level of regulatory protection that you would receive as a Retail Client including the inability to complain to the Financial Ombudsman Service, except where acting in a personal capacity and you may not be eligible to compensation under the Financial Services Compensation Scheme.

4. INVESTMENT OBJECTIVES & RISK ATTITUDE

We offer an Advisory service and any advice or recommendation that we offer to you, will be based on your stated investment objectives, personal circumstances and risk appetite and will also take into account any restrictions that you wish to place on the type of investments you would be willing to consider. This will form your Investment Profile (IP). In order to ensure that the ongoing advice or recommendations that we provide takes account of all relevant factors, we shall request, annually, information from you about your personal and financial situation, risk appetite and investment objective. We review services quarterly to ensure they meet needs and avoid harm. We identify and support vulnerable customers by carrying out extra checks in the IP process to avoid harm. Failure to update info may lead to downgrading to execution-only.

- 4.1 If there is a change in your personal circumstances, investment objectives, risk appetite which would impact on the advice or recommendations we give you, you must notify us immediately.
- 4.2 When assessing and giving advice or investment recommendations CSSI will rely upon the truth, accuracy and completeness of the information that you have provided to us and that from your IP.
- 4.3 We will provide you with a copy of your agreed IP upon opening your account and annually thereafter. Read the Risk Warnings (Appendix A) before investing; past performance is no guide to future performance.
- 4.4 We require identity verification such as passport and proof of address to comply with anti-money laundering rules. Once verification takes place, services will start.

5. REPORTING

Where we effect a transaction, SCML or JB will provide you with, or will procure on your behalf, information about executed transactions on a transaction-by-transaction basis.

The contract note will be sent no later than one business day after the day of the transaction or, in the case of orders executed via a third party, no later than one business day after the date of confirmation of the transaction.

For both the CSS Contemporary account and the CSS Classic account you will receive regular periodic statements at least every three months, in full compliance with FCA requirements.

For the CSS Contemporary account, SCML will prepare your statements and make them available through their secure online client portal. You will receive an email reminder every three months prompting you to log in and view your latest statement. These statements will include a full valuation of your holdings, details of all transactions carried out in the period, a complete breakdown of costs and charges, and clear performance information. If you have any difficulty logging in or accessing your statement, please contact us straight away and we will arrange assistance or an alternative method of delivery.

For the CSS Classic account, JB will prepare your statements and send them to you via email. Your statements will contain the same comprehensive information: a valuation of your holdings, details of all transactions in the period, a full breakdown of costs and charges, and performance information.

In both cases it is important that you check each statement carefully as soon as you receive it (or as soon as it is made available to you). If you believe anything is incorrect or have any questions, please let us know without delay and in any event within 30 days of the statement date or the date it was made available. This helps us resolve any issues quickly and protects your rights under the FCA rules.

We will always ensure that the format and content of your statements meet the latest FCA rules and are clear, fair and not misleading.

6. COMMUNICATIONS

We shall act on instructions given by you. We can accept instructions from you either in person, by letter, email or telephone. Our preferred method is via telephone. These instructions will be acknowledged either in person, by letter, email or telephone.

- 6.2 You should keep your account details safe and secure at all times.
- 6.3 If you have asked for our advice on any investments, we may give that advice to you either in person, by letter, email or telephone. Our preferred method is via telephone.
- 6.4 You shall notify us immediately of any change in your contact details; this includes name, residential address, telephone number and email address. Unless you inform us that the information you have previously provided is out of date or inaccurate, we will be entitled to rely on it.
- 6.5 To enable us to provide a proper service to you, there may be occasions when we shall need to contact you without your express invitation. For example, it may be in your interest to buy or sell a particular investment and we would wish to be able to inform you of that fact. We shall, of course, comply with any other restrictions you may wish to impose.
- 6.6 In order to enable us to monitor compliance with the relevant FCA rules of conduct, and to avoid misunderstandings, we may make and keep a recording of our telephone conversations. Our recordings shall be and shall remain our sole property and will be accepted by you as conclusive evidence of orders, instructions or conversations so recorded. You agree that we may deliver copies of transcripts of such recordings to any court or

regulatory framework. We keep recordings for 5 years and deem them as conclusive evidence.

- 6.7 We shall be entitled to act for you upon instructions given or purporting to be given by you or any other person authorised by you to act on your behalf without any further enquiry as to the genuineness, authority or identity of the person giving or purporting to give such instructions.
- 6.8 We provide barrier-free support. For vulnerable customers, we offer tailored help like extended explanations.

- 9.2 We ensure our fees and charges provide fair value, benchmarked against similar services. For example, advisory commissions reflect the benefits of personalised recommendations. 12. BEST EXECUTION POLICY

Our best execution policy will apply unless we hear to the contrary from you. Consent is implied by placing orders. Full details are available on our website or on request. The key points are:

12.1 When executing an instruction on your behalf, we are required to take all sufficient steps to obtain the best possible result (or "best execution") and to consider the characteristics of the order and the financial instrument concerned. We have arrangements in place to assess the most appropriate route to execute your instructions.

12.2 When executing an instruction on your behalf, we are required to take all sufficient steps to obtain the best possible result (or "best execution") and to consider the characteristics of the order and the financial instrument concerned. We have arrangements in place to assess the most appropriate route to execute your instructions.

12.3 Our policy and the venues we use are monitored on a regular basis and formally reviewed, at least annually, to ensure that all instructions are executed promptly and accurately.

12.4 We will take into consideration a range of different factors, primarily price, but we may also include such other factors as the cost of the transaction, the need for timely execution (speed of execution), the likelihood of execution and settlement including the liquidity of the market which may make it difficult to even execute an order, the size of the order and the nature of the financial transaction including whether it is executed on a regulated market or over the counter.

12.5 We will seek to execute all trade instructions within an hour of receipt and certainly within the same trading day. If for any reason we are unable to do this, we will make every effort to inform you and take further instructions.

12.6 We accept the following types of orders: Market, At Limit, Stop Loss, Buy Stop or Trailing stop order. Unless you advise us to the contrary will usually use Market.

12.7 Where it will not be to your disadvantage, we may aggregate an order for you with those of other clients in order to streamline our processes or get the best price. We ensure client advantage and fair allocation. In the event that it is disadvantageous, we will disclose this to you.

12.8 Where we require more information in order to undertake any appropriateness assessment required by law or regulation before being able to proceed with an instruction, your failure or delay in providing this information will result in delays in accepting and executing your instruction and the foregoing provisions of this clause must be read and construed accordingly in such circumstances.

12.9 We do not accept liability for any loss resulting from the failure or delay on the part of a third party in respect of the execution of your instruction, or for your instructions being executed at a different price than that which could have been obtained if the instruction had been executed at the time anticipated by you.

Notwithstanding the above, we reserve the right to delay the processing of any instruction if, we cannot readily deal in the investment to the value of the instruction on the processing date and within the times set out above; or it is not reasonably practicable for us to process the instruction on that date due to circumstances beyond our control (including, but not limited to, any minimum dealing limit applied to the investment in question), in such circumstances, we will normally process the instruction on the first business day upon which it becomes reasonably practicable for the instruction in question to be executed after the end of the period of delay, subject to the sub clauses above.

13. CONFLICT OF INTERESTS

In the event of any conflict arising between our own interests and those of any client, or if we may have a material interest in a transaction to be entered into with or for a client, we will endeavour to eliminate it where possible. Where we cannot do so, we will disclose the conflict to you in writing. Such disclosure will include the nature and the type of conflict and will also include sufficient detail to allow you to make an informed decision on whether or not to do business with us. Where we consider that our arrangements are not sufficient to ensure that the risk of damage to you and to our other clients will be prevented, we will decline to act.

13.1 We aim to be fair and reasonable in all our dealings with you. We have established procedures relating to Conflict of Interests and Personal Account Dealing and these can be provided on request. Our Conflict of Interests Policy is available on our website and it can be provided on request.

20.2 If, on termination, any money is or may become due as a result of a commitment entered into on your account ("an outstanding account") we may at our sole discretion sell such of the investments as we may select in order to realise cash sufficient to cover any outstanding amount (but only to the extent that insufficient cash is otherwise

held on your account and available for the purpose) and/or cancel, close out, terminate or reverse any transaction or enter into any other transaction or do anything which has the effect of reducing or eliminating liability under any contracts, positions or commitments undertaken on your account.

20.3 In the event of your legal incapacity, our relationship will terminate automatically upon our receipt of written notice unless you have granted a power of attorney under which we can continue to act. We reserve the right to require proof or further details of your legal incapacity.

APPENDIX A

1. GENERAL RISK WARNINGS

The market information relating to the past performance of an investment is not necessarily a guide to its performance in the future.

The value of investments or income from them may go down as well as up. As stocks and shares are valued from second to second, their bid and offer value fluctuates, sometimes widely.

The value of investments may rise or fall due to the volatility of world markets, interest rates and capital values or, for investments held in overseas markets, changes in the rate of exchange in the currency in which the investments are denominated.

You may not necessarily get back the amount you invested.

You should carefully consider in the light of your financial resources whether investing in stocks and shares is suitable for you.

2. EXECUTION ONLY RISK WARNING

We will not provide you with any advice or recommendations in respect of the merits of any transaction or whether it is suitable for you. However, in accordance with FCA rules, we are required to assess whether the investment products or services you wish to access are appropriate for you, taking into account your knowledge and experience in the relevant investment field. To comply with this requirement, we will seek information from you about your knowledge and experience, which will form the basis of your IP. If we determine that a product or service is not appropriate for you based on the information provided, or if you do not provide sufficient information for us to make this assessment, we will warn you accordingly before proceeding. If you nevertheless instruct us to continue, we may do so, but you acknowledge that you proceed at your own risk, without the benefit of our assessment of appropriateness.

3. COMPLEX PRODUCTS RISK WARNING including CFDs

The target market for complex products is experienced investors with a high tolerance for risk. The structures involved may not be clear or straightforward.

CFDs (Contract for Differences) offer short term exposure to market volatility and investors should be confident in their understanding of the nature and exposure to risk of these investments. Please note that CFDs are considered high risk products.

You can lose more than your initial deposit rapidly and substantially. You should be satisfied that the product is suitable for you in the light of your circumstances and financial position.

In deciding whether to trade in CFDs, you should be aware of the following points: CFDs can only be settled in cash; Investing in a CFD/Spread Bet carries the same risks as investing in a future or an option or other derivative product.

Contingent liability investment transactions, which are margined, require you to make a series of payments against the purchase price, instead of paying the whole purchase price immediately. If you trade in contracts for differences, you may sustain a total loss of the margin you deposit to establish or maintain a position. If the market moves against you, you may be called upon to pay substantial additional margin at short notice to maintain the position. If you fail to do so within the time required, your position may be liquidated at a loss, and you will be responsible for the resulting deficit. Even if a transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when you entered the contract.

Before you begin to trade, you should obtain details of all commissions and other charges for which you will be liable. If any

charges are not expressed in money terms (but, for example, as a percentage of contract value), you should obtain a clear and written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms. In the case of futures, when commission is charged as a percentage, it will normally be as a percentage of the total contract value, and not simply as a percentage of your initial payment.

4. SMALLER COMPANIES RISK WARNING

There is an extra risk of losing money when shares are bought in some smaller companies including "penny shares". There can be a big difference between the buying price and the selling price of these shares and if they have to be sold immediately, you may get back much less than you paid for them or in some circumstances, it may be difficult to sell at any price. It may also be difficult for you to obtain reliable information about the value of this investment or the extent of the risks to which it is exposed.

5. FOREIGN EXCHANGE RISK WARNING

Foreign exchange trading and investments based in currencies other than local currency (GBP) may be affected by changes in the exchange rate that may cause the income or value of the investment to go up or down.

Trading foreign exchange on margin carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you.

Before deciding to trade foreign exchange, you should carefully consider your investment objectives, level of experience, and risk appetite.

The possibility exists that you could sustain a loss greater than your initial deposit.

6. INVESTMENT TRUST WARNING

Investment Companies including investment trusts use or may have the ability to use gearing as an investment strategy or may invest in companies that use gearing. Movements in the price of these securities may be more volatile than the movement in the price of the underlying investment. The investments may be subject to sudden and large falls in value, and you may get back nothing at all if the fall in value is sufficiently large.

7. EXCHANGE TRADED FUNDS (ETFs) RISK WARNING

ETFs are investment funds, traded like shares which hold assets such as shares, commodities or bonds. They normally closely track the performance of a financial index, and as such, their value can go down as well as up and you may get back less than you originally invested. Some ETFs rely on complex investment techniques, or hold riskier underlying assets, to achieve their objectives.

The value of an ETF may be affected by market values, interest rates, exchange rates, volatility, dividend yields and issuer credit ratings. These factors are interrelated in complex ways and, as a result, any losses or gains could be magnified.

8. BOND RISK WARNING

Bonds are loans to a government or company. They are also known as debt instruments and cover the categories of Debt Securities and Fixed Income instruments. Generally, they will be more stable than share-based investments but in some circumstances (particularly when interest rates are changing) they can be more volatile. In the event of an issuer experiencing financial difficulty there may be a risk to some or all of the capital invested.
