Ongoing account charge

Your account will incur the following ongoing account charges that will depend on the size of your 'securities portfolio'.

The ongoing account charges will be assessed on the end of the month value of the 'securities portfolio' (securities such as shares, bonds, ETFs) within the account according to the following bands. The ongoing account charges will not be levied on cash or cash receivables such as dividends.

- | | |
|-------------------------|---------------|
| • Securities Portfolio | Annual Charge |
| • £0- £250,000 | 0.50% (+VAT*) |
| • £250,000 - £500,000 | 0.35% (+VAT*) |
| • £500,000+ | 0.20% (+VAT*) |
| • Minimum annual charge | £180 (+VAT*) |

*VAT will be charged where applicable

The ongoing account charges will be settled monthly, and payable from cash on account. The charges use a 'slab' approach i.e., a charge will fix according to the relevant 'slab' amount within each band.

For example: -

- £50,000 securities portfolio – 0.50% charge hence $£50,000 \times 0.50\% = £250$ per annum or £20.83 per month.
- £300,000 securities portfolio – 0.50% charge on the first £250,000 = £1,250 per annum plus 0.35% on the next £50,000 hence £175 per annum = £1,425 in total, hence £118.75 per month.

The account charges can therefore change if the securities portfolio moves above/ below relevant bands by the end of the month.

The ongoing account charges will be levied on advisory accounts, ISAs, SIPPs, and Trust accounts.
